TO WHOM IT MAY CONCERN

This is to certify that M/S Saudi Arabian Eng. Co. Ltd (SAECO) has successfully completed the GE Gas Turbine Mark IV Control System Upgrade Project during the SABIC/Ibn Sina MTBE Plant Turnaround in April 2009.

The upgrade covered the scope of Design, Supply, Installation, and Commissioning of the Mark VIe turbo machinery control system, and Training.

We duly recognize SAECO's effort in responding to the change work orders requested and completed the activities in due time to the satisfaction of SABIC/Ibn Sina.
